A train of 35 cars arrived at the denot at the hemining of September . the train had come from the train had come from gadebusch and carried German artillery ammunition exclusively. ** ** Comment. The information confirms the Seviet ammunition depot at Mockrehna until the beginning of September 1951. The statement that the depot exclusively contains Serman ammunition, appears credible. No reports on rail newments listed the arrival of shipments from the U.S.S.R. at the depot. The depot at Mockrehna as well as the depot at Torgau-Zinna, which also stores German ammunition, were filled with stocks from Justerbog in November 1950. They probably serve Volkspolized units exclusively. The munitions were formarly stored in the German Air Force ammunition depot. The munitions were allegedly to be destroyed in December 1948. It is not known whether German chemical warfare agents are still stored at the CLASSIFICATION SECRET/CONTROL/US OFFICIALS ONLY Document No	-5/(1	40 L	of ammunit	TOU TROUGHTOOK	renna at till be <u>ml</u>	nning of th	e summer training which was held
